

100G Liquid-Cooled Switch with 3-Year Warranty

The S6850-56HF-CP cold plate liquid-cooled Ethernet switch employs both a cold plate and fan trays to remove all heat from the switch and thus significantly reduce the number of required air conditioners.

The DynaNET 100G-01 is a high performance switch for Automotive and rugged applications, where extreme levels of performance, reliability and compactness are required.

The DynaNET 100G-01 is liquid cooled and has no vents nor moving parts, dramatically increasing reliability. Since it does not require any ventilation, the DynaNET 100G-01 is extremely compact and ...

WILDSTAR 100GbE 6E10 6U OpenVPX Switch is a rugged 6U board that provides switching between backplane slots of multiple channels of 100Gb Ethernet. It also has front panel I/O which can be used ...

S7600-24X2C can be used as an aggregation switch in the traditional 3-tier architecture to downlink 10G access layer switches and uplink 100G core layer switches.

Edgecore DCS204 is a high-performance 100G QSFP28 switch designed for data center and cloud environments that require dense high-speed connectivity, strong throughput, and flexible open ...

S7600-24X2C can be used as an aggregation switch in the ...

FS 100G Switches offer high programmability and scalability, designed for large enterprises and hyper-converged infrastructure (HCI) networks. [Learn more!](#)

Now it's time for a matching switch - the CRS504-4XQ-IN. The small size combined with the low power consumption (25W without attachments!) is perfect to start expanding 100 Gigabit networking in ...

Cisco 100G switches typically offer high-speed connectivity, scalability, and energy efficiency. Key features include support for multiple 100G ports, advanced security protocols, and robust ...

Explore Edgecore's high-performance 100G and 40G bare-metal data center switches for ToR and spine deployments. Featuring the industry's first OCP ...

100G Liquid-Cooled Switch with 3-Year Warranty
