

10G Optical Module to Electrical Converter

The unit offers non-blocking wire-speed performance and exceptional flexibility, making it ideal for extending 10G Ethernet into outdoor long reach applications or industrial environments where ...

What is the SFP 10G optical to electrical module? It converts optical signals to electrical ones in 10G Ethernet networks, enabling high-speed fiber-to-copper connectivity while maintaining compatibility ...

Description: The 10G Fiber Converter is protocol-independent with dual XFP or SFP+ ports, the 10G fiber converter can provide conversion between different wavelengths or single-mode and multi ...

It can achieve wavelength conversion, optical signal amplification, and single or multiple-channel long-distance transmission of optical signals within a single fiber. The card is compatible with SFP/SFP+ ...

Widely used in fiber switches, pcie ethernet adapter, router, NIC, server or other fiber optic equipments with 10Gb SFP+ ports. QSPTEK Guarantee: All of products are manufactured under strict quality ...

Widely used in fiber switches, pcie ethernet adapter, router, NIC, server or other ...

It supports 10Gigabit Ethernet media conversion from copper 10GBASE-T to fiber multi-mode or single-mode, utilizing 10GBASE-SR or 10GBASE-LR SFP+ transceiver installed in the SFP+ slot to extend ...

10GBase media converter supports a 10GbE fiber connection with CAT.6a, CAT7 RJ45 Copper. This converter designed with 2 SFP+ slots, SFP1 port for a SFP+ -T module, SFP2 port for a SFP+ fiber ...

USource 10G OEO is a standalone 10Gb Optical to Electrical to Optical converter (3R Repeater) with two optical interfaces SFP+ or XFP optional, commonly used for CWDM DWDM transmission system.

Auto-adapts copper/fiber rates (100M to 10G) with plug-and-play simplicity.

It support SDH/SONET STM-64/OC-192,10G fiber channel,10G Ethernet etc and can be applied in Telecommunication room, R& D laboratory, Data center or even 1310nm /1550nm/CWDM/DWDM ...
