

It delivers secure, high-speed broadband access with flexible deployment in metro and business settings. The ENC-10G-ONT-10 comes with built-in XGS-PON optics and MAC, an ...

Explore the evolution and technical comparison of 10G PON standards to help you select the ideal solution for FTTH, enterprise, or 5G backhaul.

Discover the XG1200 10GPON ONU ONT, a high-speed FTTH device with 1*2.5GE and 1*1GE Ethernet ports. Ideal for fiber modem applications, this 2 Ports ONT Optical Network Terminal offers 10G ...

Simplified architecture for all services: Deploy 10G PON alongside existing Ethernet services, including mobile backhaul, Remote PHY, direct internet, and metro Ethernet on the same device

It is designed to harness the full potential of next generation 10G Fiber broadband and pairs it with uncompromising Wi-Fi 7 connectivity for 10 Gbps performance to and through the home.

This micro ONU (uONU) can operate in Ethernet switches with standard SFP+ interfaces and other Ethernet-enabled devices, such as home gateways, enterprise/campus switches, WiFi access points ...

XGS-PON, NG-PON2, and GPON can co-exist on the same fiber, allowing you to introduce 10G-PON into your existing network without disrupting current services or replacing your optical distribution ...

Scale up to a future-ready fiber network today with Hitron's line of 10G PON ONT/ONU and gateway options. Our expanded portfolio now includes devices that not only deliver high-ARPU symmetrical ...

Its high-speed 10G Ethernet port enables direct connection to high-performance networking devices, such as servers, enterprise routers, and high-speed workstations, ensuring a smooth and reliable ...

The Hitron NOVA2313 is a powerful 10G XGS-PON ONU gateway that combines multi-gig fiber access, advanced routing, and multiple Ethernet ports in a single device.
