

All the electrical access interfaces of 5250 POE series switch support POE and POE+, which go in line with 802.3af and 802.3at standards, and are compatible with PD equipments that doesn't support ...

Goalake poe switch 5 port automatically detect the transmission distance and ...

These Layer 2/Layer 3 Lite switches provide robust performance, advanced QoS, and comprehensive security features, making them ideal for building reliable, high-speed network ...

Equipped with five Gigabit Ethernet ports, this switch can power up to four wireless LAN access points and bridges, VoIP phones or IP video cameras, draw its own power from the PoE switch it is ...

The ZXR10 5250-H Series switch supports full IEEE 802.3af Power over Ethernet Plus (PoE) and IEEE 802.3at Power over Ethernet Plus (PoE+) to fulfill more enterprise access scenarios.

5250 POE switches support assigning time-ranges for POE and maximum POE output for specific interfaces. During the time when power output is unnecessary, the POE function can be turned off to ...

Built on Broadcom's Tomahawk 6 silicon with 102.4 Tbps bandwidth, the switch is optimized for performance, power efficiency, and operational simplicity. It brings decades of innovation in Juniper ...

Power the switch during power dips or failures, with redundant power input using the optional power adapter (included) Rugged metal enclosure provides durability in harsh environments

5-Port Ethernet PoE Switch (4 PoE Ports, 1 Uplink) with Extend Function, Easy Smart Managed Ethernet Switch, Plug & Play, Fanless Metal Design, VLAN, Qos, Desktop/Wall Mount

The Juniper QFX5250 line of Switches is the world's highest-performance, liquid-cooled, Ultra Ethernet Transport ready switch designed for next-generation AI infrastructure.

The world's highest-performance, liquid-cooled, Ultra Ethernet Transport ready switch designed for next-generation AI infrastructure. With 64 ports of 1.6Tbps Ethernet in a fixed 2U switch, the QFX5250 ...

An 8-port Gigabit switch with 4 PoE ports, offering network monitoring and VLAN features for small businesses.
