

Cable tray installed in a hazardous location must contain only those cables that are appropriate for this type of environment as defined in Chapter 5 of the NEC.

Cablobend Systems give you the freedom for true cable tray flexibility. Create bends and drops that you need--without cutting. Perfect for data centers.

Our company is a trusted manufacturer of high-quality bends for cable trays, engineered to provide seamless transitions and superior support in cable management systems.

There is no minimum radius bend for cabletray or low voltage conductors that I'm aware of in the NEC, unless the specific manufacturer establishes a minimum.
