

Comprising of stripe widths as narrow as 75 μm and power levels up to 300 W, finding the right pulsed laser diode for your application has never been easier. The DPGAS1S03H is a metal packaged high ...

75W 905nm pulsed laser diode - PremierPhotonics - 3 stack PLD with laser wavelength 905nm Peak output power 75W Optical aperture size 300 μm x 10 μm

High power 905nm 75W IR laser diode engineered to deliver robust power and reliability for high-speed optical storage applications.

Laser Components 75W 905nm Pulse infrared laser diode 905D1S3J09UA 905nm LD 75W /metal package \$ 81.72 10000 in stock

Find the right laser diode with just a few clicks. Just select your specifications in the search mask and you get an instant overview of all the laser diodes that meet your requirements.

905nm, 75W Laser Diode Laser diodes from Laser Components are single and multi-junction devices with up to 75W of optical output power. These devices are offered in a hermetic 5.6mm CD package. ...

RLD90QZW3-00A ROHM Semiconductor | MouserROHM Semiconductor RLD90QZW3 75W Infrared Pulsed Laser Diode is designed for LiDAR systems that perform distance measurement and spatial recognition using a 3D Time-of-Flight (ToF) system.

905nm Pulse Laser Diode Description: Features: \bullet Low-cost TO-can package \bullet High Peak output power... Brand new Osram 75W 905nm laser diodes LD. OSRAM Radial T1 3/4, SPL PL90,Pulsed ...

The RLD90QZW3 is a 75W infrared high optical output laser diode designed for LiDAR used in distance measurement and spatial recognition in 3D ToF (Time of Flight) systems.

WSPLD-905-075-1 Wavespectrum Laser Group . Electrically shorten LD module and store in non-extreme conditions. Suggest using the constant current power supply.

ROHM Semiconductor RLD90QZW3 75W Infrared Pulsed Laser Diode is designed for LiDAR systems that perform distance measurement and spatial recognition using a 3D Time-of-Flight (ToF) system.
