

We address a wide range of requirements by offering a range of cable types tailored to specific applications. Our product range includes standardized options such as DR and MIL-Spec cables, as ...

We design and manufacture a broad range of High Speed and Fiber Optic Connectors, Cable Assemblies, and Integrated Solutions utilizing our High-Speed Contacts and Fiber Optic Termini ...

GORE Fiber Optic Cables prove trustworthy in numerous defense aircraft, military land vehicles and commercial aircraft applications. We offer single-mode and multi-mode core types from OM1 to OM5 ...

Our portfolio includes high quality cables that meet the requirements of various platforms, such as flight communications, unmanned deployments (air and ground), and harsh environment communications.

While we think of fiber optic aerospace cables primarily used in aircraft, they are also used in ships and submarines, where the ability to withstand harsh environments is highly valued.

The Fiber Optic Cables for Military and Aerospace market is experiencing significant growth driven by technological advancements and increasing defense budgets worldwide.

Lightweight, high-performance fiber optic cables and networking equipment for aircraft, satellites, ground support, and aerospace manufacturing

Infinity Fiber specializes in manufacturing custom fiber optic cable assemblies for Aerospace, Defense and Telecom companies nationwide. Any industry that requires the use of optical fiber can benefit ...

Nortech Systems provides high-quality aerospace and defense fiber optic cable assemblies that meet or exceed MIL-STD-2042 requirements. Learn more about your options below!

Major Custom Cable designs aerospace cable assemblies, fiber optic cables, and custom aerospace wiring built for mission-critical performance. Engineered for speed, reliability, and precision--when ...
