

Andorra Machinery Cable Tray Support Arm

Support your strut channel installations with our Cantilever Arms (HDG & A4 Stainless Steel), designed for heavy-duty, corrosion-resistant framework support in industrial, commercial, and construction ...

When the mould is removed, the result is a strong, flexible support rail system encased in the concrete wall, ceiling or floor. The rail system can be used for direct support by attaching cantilever arms, or ...

In addition to the cantilever arms listed, there are many other specialist support brackets for use with cable tray or cable ladder.

These tray systems allow excellent ventilation and prevent sagging while routing. They support up to 280 lbs. per foot (based on a tray support, such as hanging clamps or a hanging bar, every 8 feet).

These fittings are used in conjunction with cable trays to support cables in ventilation holes, assist with directional change of piping systems, and aid cable channelling around obstacles.

Get cable management arms designed for organization and safety. Find compatible solutions for your equipment and workspace.

The Single Channel Cantilever Arm Bracket (IC/CARM/SC) is suitable for supporting light to medium loads. The single channel cantilever arm bracket is available in lengths from 150mm to 900mm for ...
