

Applications of Pigtail Channel Diameter Variable Straight-Through

Objective The primary objective of this study is to thoroughly investigate and compare the fluid dynamics characteristics and efficiency of ...

Catheters with larger inner diameter demonstrate superior flow rates draining viscous solutions in controlled laboratory conditions. However, the clinical relevance of this diameter ...

Multipurpose Drainage Catheter is used for percutaneous drainage in drainage applications of nephrostomy, biliary, abscess, pleural and peritoneal cavities by seldinger technique for a period of ...

In this work, we introduce a novel three-dimensional (3D) drainage catheter with protected side holes to reduce flow blockages. We then compare its drainage performance to standard straight and pigtail ...

Ribbon fiber trunks provide high-performance MTP factory-terminated assemblies, that allow for reduced installation time, especially during fiber preparation and slicing of pigtail trunks, and less conduit ...

Devices included straight chest drains, locked pigtail catheters and unlocked safety catheters (Fig. 1). All catheters can be used with their enclosed trocar for "single-stab" technique.

Fiber optic pigtail is an important component commonly used in fiber optic networks. It has fiber connector at one end, and the other is utilised in terminating fiber optic cables via fusion or ...

Hence, this study aimed to introduce pigtail catheter tailing and long-wire swapping technique, and explored the application of this technique in patients undergoing cerebral angiography via the right ...

The pigtail catheter insertion for pleural drainage is a safe and effective alternative to large-bore French chest tubes. [Learn more about it here.](#)

Randomized controlled trials in hemodynamically unstable patients, those with an initial output of more than 1000 mL, and those with penetrating trauma-induced hemothoraces are needed ...

Objective The primary objective of this study is to thoroughly investigate and compare the fluid dynamics characteristics and efficiency of pigtail drainage catheters with skived holes and...
