

Cold-rolled type of distribution box housing

Durable and Weather-Resistant Design: This outdoor electric distribution junction box boasts an IP65 protection level, ensuring it can withstand harsh environmental conditions, including exposure to ...

This high-performance Wall Mount Metal Distribution Box is fabricated from premium cold-rolled steel, offering a robust and secure housing solution for electrical control systems.

The HQDQ Indoor Distribution Box is designed for effective and safe electrical distribution in a variety of indoor environments. Made from durable cold-rolled material, this distribution box offers robust ...

Crafted from high-quality cold-rolled steel plates (SPCC) with a thickness of 1.2-2.0mm, our enclosures feature superior phosphating treatment for enhanced rust resistance and a robust electrostatic spray ...

Crafted from premium 1.5mm thick cold-rolled steel, this distribution box boasts exceptional sturdiness and durability, providing a robust protective shell for your valuable wires and electrical components.

Material Advantages: Made of cold-rolled steel, possessing high hardness and strength, effectively protecting internal precision electrical components. **Impact Resistance:** Able to withstand external ...

Our main products are: Sheet metal products, metal boxes, cabinets, electric control cabinets, enclosures and scrolling light box processing, which are widely used in communication, ...

Modular & Flexible Design: Pre-drilled holes and spacious interior with mounting rails enable easy installation of circuit breakers and wiring, simplifying maintenance and upgrades.

E-abel's cold-rolled steel powder-coated junction box is built around these real-world needs, offering a practical and scalable solution for modern industrial projects.

Constructed from high-quality cold-rolled steel and finished with a durable powder coating, this enclosure provides excellent protection against dust, dirt, and mechanical impacts.
