

Meet all of your fiber optic cable assembly needs in full with our extensive line of trunk assemblies, breakout harnesses, patch cords, interconnects, and pigtails.

Small Form Factor (SFF) connectors are compact fiber optic connectors that are designed for small spaces. They are about half the size of most standard sized optical connectors. These types of small ...

MHC® II FIBER OPTIC CONNECTOR Compact connector for fiber optic or composite applications
Overview OCC's Mini Hermaphroditic Connector, or MHC® II, is an amazingly rugged, yet ...

By integrating linear laid copper and loose-tube fiber in one cable, ActiFicables eliminate the need to install separate power and fiber cables. This saves installation time, labor costs and duct or tray space.

Learn more about our crush-proof stainless steel micro-armor fiber optic cables, the smallest and most flexible in the industry.

LC Fiber Connector are a type of push and pull connector similar to the SC connector, only this optical cable connector has a locking tab. There is a smaller ferrule employed within this connector, making ...

The SC connector is one of the earliest and most enduring types in the fiber optic world. Known for its square shape and push-pull coupling, SC is widely used in FTTH (Fiber to the Home) ...

Find your composite connector easily amongst the 78 products from the leading brands (LEMO, Hirose, CORNING, ...) on DirectIndustry, the industry specialist for your professional purchases.

The hybrid ActiFi composite cable eliminates the need to pull separate cables for data and power, saving you valuable time. Watch how this installer deployed 11 ActiFi cables at once using ...

Molex MMC connectors offer compact, high-density solutions with low-loss performance, reducing complexity, optimizing space and accelerating time-to-market to meet high-bandwidth demands in ...
