

Customized fiber optic sensors with protective covers

Fiber SenSys[®], Inc., (FSI) is the market-leading manufacturer of fiber-optic intrusion detection systems for outdoor perimeters and physical data networks. FSI sensors have been successfully deployed on ...

We design and manufacture customized state-of-the-art fiber optic sensor systems for the measurement of temperature, strain, and other physical parameters.

Constructed with industry-standard optical fiber, this compact and robust sensor is available with various optical cable and sheath options, ensuring adaptability to specific customer applications or OEM needs.

Shop MISUMI Brackets & Covers for Photoelectric & Fiber Optic Sensors at MISUMI. MISUMI offers FREE CAD download, short lead times and competitive pricing. Quote and order online today!
