

Desktop Installation Solution for Cold Aisle Data Centers in the United States

Rittal's aisle containment solutions reduce data center cooling costs by up to 30%. Modular design ensures quick deployment, improved airflow control, and easy scalability with existing IT infrastructure.

Essentially creating a room within the aisle, the system helps keep hot and cold air separated to make existing air conditioning systems in data center and edge-of-network installations more efficient.

Custom engineered hot and cold aisle containment solutions that keep your data center running smoothly -- and make your build-out be more efficient, too.

Whether ceiling hung or integrated with aisle structure, our containment solutions are manufactured on our dedicated lines for quality, accountability, and fast lead-times.

Backed by 160 years of manufacturing expertise and American-made reliability, our solutions help you meet sourcing demands and critical build schedules--without compromising ...

Sliding Doors offer data centers aisle-end containment in just minutes and without the need for contract labor. The one-tool design allows for quick and easy installation, removal, and re-installation with ...

Adaptable to hot and cold aisle containment, the Aisle Containment system allows you to deploy containment before or after racks are installed to simplify installation and speed deployment of new ...

Enconnex offers customizable hot & cold aisle containment solutions. Save energy, reduce hotspots, & improve airflow with data center containment systems.

Altimir is redefining data center aisle containment. The company designs, fabricates, and installs custom-engineered Hot Aisle and Cold Aisle Server Containment Systems for data centers nationwide.

In addition to our standard product line, we engineer and build bespoke solutions to overcome unique obstacles or constraints present in any data-center environment. Whether implementing hot-aisle or ...
