These specialized cables are engineered for vertical runs in riser shafts and elevator shafts, providing reliable connectivity while meeting strict fire safety codes. The indoor riser optic ...

The company specializes in manufacturing optical fibers, fiber optic cables, and fiber lasers, catering primarily to telecommunications and data center operators.

A Riser cable (compliant with UL 1666 standards) is a communication cable tailored for vertical pathways in buildings, such as elevator shafts, conduit shafts, or inter-floor cable risers. Its core ...

Our indoor distribution fiber cable is a go-to, general purpose cable that can be installed vertically or horizontally. Its tight buffered design, with multiple protection layers around the fiber ...

Enter the fiber optic riser cable, a vertical workhorse of modern data transmission. Tucked inside elevator shafts, riser closets, and conduits that snake between the floors of towering...

Discover Incab America, a fiber optic cable manufacturer in the US and leading fiber optic cable company for aerial, ADSS and OPGW cables.
