

Thorlabs" PM5020 Dual-Channel Power and Energy Meter Console is ideal for precise optical measurements, laser and photodiode characterization, lifecycle measurements, and many more ...

The OP710 offers an economical approach for optical power measurement applications where multiple channels are needed. Unlike other systems, this instrument is built up with individual power meters ...

The 2938-R dual channel high performance optical power and energy meter features a 7 inch, high brightness, touch screen and great improvements on the user interface.

Choose the optical power meter you need to enable centralized control, flexible connectivity, and scalable measurement capability for optical component development or production test. Choose one ...

VIAVI offers fast, cost-effective, and easy-to-use power meters for installation and maintenance of single mode and multimode fiber optic networks and advanced, photonic-layer power meters for lab and ...

The Tempo Communications fiber optic sources are available in dual and triple wavelength lasers and a dual wavelength LED. Accurate insertion loss measurements are possible when used in conjunction ...

OWL manufactures a complete line of fiber optic power meters with capability ranging from simple optical power and optical loss measurement to complete standards-based fiber optic link certification ...

AFL's full range of power meters are used for testing single-mode and/or multimode fiber networks. Power meters with wave ID can detect two or more wavelengths simultaneously - decreasing test ...

Tempo Communications optical power meter will quickly identify the fiber. The ruggedized IP54 compliant package provides test confidence when testing ...

Santec's OPM-150 Multichannel Optical Power Meter is a cost-effective solution for manufacturers or labs requiring high channel counts. Available with up to 24 individual detectors, the OPM-150 ...

Tempo Communications optical power meter will quickly identify the fiber. The ruggedized IP54 compliant package provides test confidence when testing singlemode and multimode networks.

The Tempo Communications fiber optic sources are available in dual ...
