

EM Microelectronic specializes in design and production of low voltage integrated circuits (ICs) for a variety of consumer and automotive industries. They also offer system solutions and modules for ...

They are either operated by Integrated Device Manufacturers (IDMs) that design and manufacture ICs in-house and may also manufacture designs from design-only (fabless firms), or by pure play ...

Malaysia and Vietnam lead in high-value manufacturing, while Singapore focuses on advanced R& D. At the same time, Thailand, Indonesia, and the Philippines are strengthening their ...

Find our regional offices, headquarters, global manufacturing sites, and R& D centers.

Asia Pacific Microsystems, Inc. has been dedicated to Micro Electro-Mechanical Systems (MEMS) wafer production for over 20 years, making inkjet heads, pressure sensors, environmental sensors, and ...

home - ESMT is a leading IC design Company, focus on Dram, Flash, Class D Amplifier and AD/DA Converter.

Supporting a network of global brands, Serial System is a leading distributor of electronic components and consumer products in Asia. It is also a strategic investor in businesses in healthcare, managed ...

HANA Microelectronics Group is one of the leading independent electronic manufacturing service (EMS) and outsourced semiconductor assembly and test (OSAT) company in ...

Get profiles of Asia-Pacific Semiconductor Device companies - leading, established, and top emerging players - with analyst insights, competitive matrices, and strategic positioning details of these firms.

STARS Microelectronics (Thailand) Public Company Limited, or SMT, a Thai electronic components manufacturer and assembler, continues to strengthen its environmental standards by receiving the ...

Semiconductor fabrication plants are factories where integrated circuits (ICs), also known as microchips, are manufactured. They are either operated by Integrated Device Manufacturers (IDMs) that design and manufacture ICs in-house and may also manufacture designs from design-only (fabless firms), or by pure play foundries that manufacture designs from fabless companies and do not design their own ICs. Some pure play foundries like TSMC offer IC design services, and others, like Samsung, design and ma...
