

High-quality fiber pigtails with pre-terminated connectors on one end and exposed tight-buffer fiber on the other. Available in single-mode and multimode (LC, SC, FC, ST), customizable, factory-tested, ...

These fiber optic pigtail connectors are compliant to IEC, TIA/EIA, NTT and JIS specifications. The FC connector is a one piece construction and push pull off design. Low cost but high performance, which ...

Find high-quality fiber optic pigtails for reliable network termination. We offer a full range of single mode and multimode pigtails with SC, LC, ST, and FC connectors.

When utilized properly, the Fiber Optic Pigtail allows light signal transmission with minimal return loss and low attenuation. The pre-terminated fiber reduces installation time and ensures accuracy.

This series of FC pigtail Assemblies are available in UPC, APC polish with simplex or duplex fiber optic cable versions. Cable length, cable diameter, and jacket are optional.

Our fiber optic pigtail offers a flexible solution for your data centers and telecom rooms, connecting existing equipment to spliced fiber optic lines for network expansion.

Leviton fiber optic pigtail kits are a good solution for mechanical or fusion splicing applications. Available in a range of multimode and single-mode fibers with SC, ST or LC connectors. Our premium pigtails ...

FC Fiber Optic Pigtail is a type of fiber optic cable that is used to connect two fiber optic cables together. It has an FC connector on one end and a bare fiber on the other end.

FS fiber optic pigtails offer a fast way to make fiber optic communication devices in the field by fiber splicing, fully manufactured and tested by industrial standards.

These pigtails feature premium-grade jackets and are equipped with LC, SC, ST, and FC connectors, typically with a 0.9mm outer diameter cable. Additionally, we provide options for simplex and duplex ...
