

MEISU provides 2D fiber array (two-dimensional fiber array) with quality fiber collimators and fiber bundles. Ideal for high-density fiber arrangement in optical cross-connection, spectroscopy, ...

Whether you need simple, single-fiber patch cables or custom fiber optic assemblies, our team is dedicated to meeting your volume requirements promptly and reliably.

Explore 58 top manufacturers and suppliers of Substrates in our comprehensive photonics buyers' guide.

Neptec offers fully customizable fiber optic components and cabling, backed by expert engineers and cutting-edge technology, with a specialization in polarization maintaining components and FAU ...

Find Fiber Optic Arrays Manufacturers and Suppliers in the USA and Canada on Thomasnet

3V TECHNOLOGY is a leading solution provider of optical fiber fixing & assembling, with more than 18 years professional experiences. We have more than 30 skilled workers, who had been worked in ...

Applications can be for fiber support and/or alignment purposes, or for isolating fiber within the package. Extremely tight tolerances, typically in microns, are achieved by VitroCom's proprietary technologies ...

31 suppliers for fiber arrays are listed in the RP Photonics Buyer's Guide, out of which three present their product descriptions and images. Both manufacturers and distributors can be registered.

11/65/EU GR-1221-Core GR-1209 Corning OEM offers a broad range of Fiber Array Units (FAUs) for long-haul, metro networks.

FiberTech Optica has developed capabilities to fabricate high precision linear, 2D and v-groove fiber arrays housed in common metals and polymers. For applications requiring fibers spaced apart with ...
