

Our complete Range of Fiber Optic Couplers, Adapters & Kits gives you everything you need to manage any Fiber Optic Cable Transition

Discover fiber optic couplers for network connectivity. Find SC, LC, and ST adapters with low insertion loss for reliable connections.

Get low-loss fiber optic adapters/couplers with good repeatability and durability for precisely mating two ends of a fiber optic cable. Multiple connector options available.

Products Optics Fiber Optics Fiber Optic Components Fiber Optic Couplers Fiber Optic Couplers Fiber-optic couplers are used to split or combine the light contained in optical fibers.

We offer a full line of fiber optic couplers and splitters supporting SM, MM, PM, large core, and double-clad fibers across 300-2000 nm, with power handling up to 100 W and operating temperatures up to ...

Fiber optic couplers provide the high-precision capability to combine or split light signals in optical networks. In complex communication systems, an optical coupler is a junction point, ensuring ...

Fiber Optic Cable Couplers are essential components for seamless connectivity in high-performance networks. Designed to join and extend fiber optic cables with minimal signal loss, these couplers ...

Single mode & multimode couplers available online from Fibertronics with same day shipping. The available split counts are 1x2 and 2x2 or 1x4 1X8.

Timbercon's fiber optic couplers and splitters utilize precision technology to combine or distribute light from single/multiple inputs to single/multiple outputs.

Two package options are available: standard tubes with fiber leads or durable aluminum housings with fiber bulkheads for the input and output. Wideband couplers can be accessed through any of the ...
