

AtGrating is a professional company for optical fiber sensing. AtGrating offers industrial solutions by providing customized sensors and sensing instruments that add value, reduce uncertainty, and ...

Phasemask Technology LLC, a Fremont California based company in Silicon Valley, has acquired Coherent (USA) Diffractive Optical Element (DOE) lines of manufacturing Phase Masks and Binary ...

On FindLight marketplace you will find 14 different Fiber Bragg Grating (FBG Length: Custom) from top global suppliers. Compare features, request pricing, and connect instantly with manufacturers -- no ...

Using our advanced FBG writing technologies with holographic phase mask and ebeam phase mask, we are able to write many different types of fiber Bragg grating such as the following listed products. We ...

Designs, manufactures, and markets high reliability active and passive optical components and modules for space, telecom, industrial, medical, and R& D applications. Develops high-power fused ...

We specialize in custom fabrication of fiber optical gratings (FBG) across wavelengths from 400 nm to 2000 nm, tailored to precise customer specifications. Using high-power laser irradiation, we ...

Wasatch Photonics is an innovator in the field of custom gratings for original equipment manufacturing (OEM) and bespoke applications. We're an independent company with a customer-first mindset, ...

Our unwavering dedication lies in crafting state-of-the-art tunable fiber optic devices and systems with diverse applications. Our patented fiber grating tuning technology offers a versatile "all-fiber" filter ...

Manufacturer of standard and custom high precision nm-order optical elements including fiberbragg and optical diffraction gratings. Step gratings, quartz and multi-channel transmission gratings, Si/V ...

Our mission is to develop, manufacture and market the highest quality Fiber Bragg Grating (FBG) based products that meet or exceed customer requirements and fulfill the specific ...
