

Compliant with the industry-standard Optical Network Unit (ONU) Management and Control Interface (OMCI), Cisco 10G Routed PON ONTs can be managed remotely in band when an optical link is ...

The AirLive ONU-10XG-1001-10G is a recently launched ONU that caters to new optical fiber communication networks. It conforms to international standards like ITU-T G.987 (XG-PON). The ...

Equipped with a 10G Ethernet port, it provides a dedicated fiber uplink for a wide range of applications, including IP surveillance aggregation, office Wi-Fi backhaul, ...

Discover our selection of GPON, EPON, and XG (S)PON ONT/ONU devices. Choose from reliable Optical Network Terminals for seamless connectivity and efficient network solutions.

XGS 10G PON ONU (Model: XGS1200) delivers next-generation broadband connectivity with 10Gbps symmetrical speeds. Designed for high-density ...

XGS 10G PON ONU (Model: XGS1200) delivers next-generation broadband connectivity with 10Gbps symmetrical speeds. Designed for high-density deployments, this compact ONU features low power ...

SoCs for Optical Networking Units (ONU) MaxLinear's Broadband Forum 247i4 certified PRX SoCs provide a clear path to scale from gigabit to 10G services with a wide portfolio of fiber access solutions.

The OXG-99C is an Optical Network Terminal (ONT) equipped with XGS-PON technology, it supports 10Gbps speed for up/downlink, bringing the higher internet speed on fiber.

TFL general manager sales and marketing, Joseph Naua, made the statement at the launch of the 10G optical fibre network in Fiji, which is planned to provide Giga-band network access ...

The UT-XGS5101 is a high-performance XGSPON Optical Network Unit (ONU), offering a 10 Gigabit Ethernet port plus one Gigabit Ethernet port for unparalleled speed and connectivity.

An optical network unit that can deliver 10 Gbps uplink/downlink speeds over distances up to 20 km.

The optical network unit for ultra-high-speed fibre communication is used to connect outdoor optical fibres to an indoor network. The unit achieves a maximum speed ...

10G PON ONU has fundamentally become a core component of modern FTTH networks. It decisively addresses the limitations of GPON, supports highly demanded multi-gigabit services, ...

The technology used in 10G GPON for multi-tasking transmission between OLT and optical network unit (ONU) equipment is the same as that of GPON. Both are time division multiple ...

Simplify network access. Plug in this compact uONU to directly connect Ethernet-enabled devices to high-speed 10G PON.

Telecom Fiji announced today the successful deployment of its 10G optical fibre network in Fiji, the first of its kind in the South Pacific. The network is ...
