

Tested for ABS, NEMA and IEC, B-Line series fiberglass cable tray is ideal for harsh, marine and caustic environments. Learn about its corrosion resistant properties.

Sturdy wire mesh cable tray system for data centers & commercial use. Supports 12A/12B loads. Includes prefab assemblies & ladder trays.

Constructed from high-quality glass fiber reinforced polymer (GFRP), these trays offer exceptional strength and resistance to corrosion, making them suitable for use in harsh environments, including ...

Our cable trays and ladder systems are made from combining fiberglass and resins that are resistant to corrosion, fire, and electrical conductivity - making them ideal for use in a variety of industries ...

GRP cable trays for supporting and protecting power and data cables. Lightweight, non-conductive, corrosion resistant and easy to install.

Type LC cable tray is ideal for control wiring and lighter cable runs that do not require numerous circuits. Available with a solid bottom upon request. Solid bottom tray consists of a standard ladder tray with a ...

Our fiberglass cable tray has been designed by our technical experts to meet customer needs for quality performance in the harshest environments. Our Glass-Reinforced Polymer (GRP) cable tray systems ...

GRP Cable Trays and Cable Ladders are products that set the industry standard for cable support systems worldwide. They offer a unique combination of high strength, flexibility, and lightweight design.

Our Fiberglass tray weighs 1/3 that of steel trays and is pound for pound stronger. This makes the tray easy to install, reduces the possibility of lifting accidents, and lowers transportation costs. MP Husky ...
