

Flame-retardant non-metallic optical cables

This FireTuf fire resistant fibre optic range is fully compliant with fire resistant standards and flame retardant standards, guaranteeing the cables circuit integrity and performance in the event of a fire.

Find your flame-retardant optical cable easily amongst the 51 products from the leading brands (LEMO, LAPP, SAB, ...) on DirectIndustry, the industry specialist for your professional purchases.

Designed with a non-metallic reinforcing core and non-armored flame-retardant construction, this cable is optimized for environments with high electromagnetic interference (EMI) and strict fire safety ...

The multi loose tube non metallic cables are designed for outside plant, which is prone to electrical interference. They are mainly installed inside buildings, tunnels,subways or closed areas in general, ...

ETK Kablo"s B2ca-classified fiber optic range provides low smoke emission, zero halogen content, and exceptional flame retardance. The design ensures data link continuity even during extended fire ...

Corning Optical Communications manufactures quality flame retardant optical fiber cables for indoor applications, which comply with the requirements of the National Electric Code® (NEC® 2023) ...

This FireTuf fire resistant fibre optic range is fully compliant with fire resistant standards and flame retardant standards, guaranteeing the cables circuit integrity ...

After corrugated steel tape armor is applied, the cable is completed with a outer flame-retardant sheath.

Performance characteristics: Non-metallic optical fiber cable low smoke halogen-free flame retardant sheath, no extension of flame and no toxic gas generated when burning, excellent performance of ...

Non-metallic indoor/outdoor Central Loose Tube Fiber Optic Cables can be used for LAN and WAN applications. Non-metallic rodent-proof Unitube cable with gel-filled tubes and water-blocked design, ...

Fire-Resistant Optical Cables are specially designed to maintain data transmission integrity even in the event of a fire. Constructed with materials that resist combustion and prevent the spread of flames, ...
