

Definition of foreign adjective in Oxford Advanced Learner's Dictionary. Meaning, pronunciation, picture, example sentences, grammar, usage notes, synonyms and more.

Optical sensing technology is particularly suited for H₂ detection, offering a safer alternative to conventional electrical methods in potentially hazardous settings. This review examines ...

FOREIGN definition: 1. belonging or connected to a country that is not your own: 2. Something can be described as.... Learn more.

This review discusses a variety of fiber-optic-based H₂ sensor technologies since the year 1984, including: interferometer technology, fiber grating technology, surface plasma resonance...

Unlike conventional sensors that measure hydrogen concentration at a single point or a few points, evanescent field fiber optic hydrogen sensors can measure three-dimensional spaces ...

6 meanings: 1. of, involving, located in, or coming from another country, area, people, etc 2. dealing or concerned with.... Click for more definitions.

Foreign means something that comes from a different place or country. Foreign people are known as foreigners. Sven has a foreign accent. Foreign can mean something that is not familiar or not ...

Herein, we proposed and experimentally developed a tilted fiber Bragg grating (TFBG) fiber-optic hydrogen sensor functionalized with urchin-like W18O49 nanospheres.

Compact single-path design enables real-time hydrogen leak detection. An ultrasensitive fiber-optic hydrogen sensor with dual serial interference modes, based on the Vernier effect, was ...

connected with foreign affairs. external to one's own country or nation: a foreign country. carried on abroad, or with other countries: foreign trade. belonging to or coming from another district, province, ...

Hence, as an intrinsically safe hydrogen sensor with the high sensitivity and quick response, this optics-mechanics coupling-based fiber hydrogen sensor can be widely used in the ...

Compared to other optical fiber hydrogen sensors, hydrogen sensors based on fiber grating are more suitable for distributed measurement and temperature compensation because of their wavelength ...

FOREIGN definition: of, relating to, or derived from another country or nation; not native. See examples of

foreign used in a sentence.

Definition of foreign in the Definitions dictionary. Meaning of foreign. What does foreign mean? Information and translations of foreign in the most comprehensive dictionary definitions resource on ...

The meaning of FOREIGN is situated outside a place or country; especially : situated outside one's own country. How to use foreign in a sentence. Synonym Discussion of Foreign.

We present a novel fiber optic hydrogen sensor with fast response fabricated from a graphene-Au-Pd sandwich nanofilm and an ultrashort fiber Bragg grating. The response time is only 4.3 s at a 3.5 ...
