

SFP transceiver that supports 1G connections up to 3 km using single-mode fiber with a simplex LC UPC connector.

Discover SFP Gigabit single-strand BiDi modules for 20Km with SC connector. ...

The 1.25G SFP WDM optical transceiver transmits data over single mode fibre at a distance of up to 20km. The transceiver operates on 1 wavelength and works in point-to-point scenario.

This SFP optical module supports Gigabit Ethernet and 1x Fibre Channel applications, featuring a single SC connector and RoHS compliance. It is available in both commercial (0°C to 70°C) and industrial (...

XENPAK optical transceivers support all optical interfaces defined in the IEEE 802.3ae standard, and are the first-generation 10G Ethernet-oriented modules with SC interfaces, which are large in size ...

Optcore offers a wide range of SC SFP BiDi modules at a great price. These bidirectional modules can transmit and receive signals using WDM technology on a single fiber cable.

GIGALIGHT's 1G BiDi SFP series optical transceiver modules support a speed of 1.25Gbps, widely used in Gigabit Ethernet, 1G fiber channel, and SDH. They can achieve a maximum transmission distance ...

This optical module offers a reliable and durable solution for professional installations. Designed for fiber optic technicians and demanding network environments.

SFP's come in a variety of data rates and different fiber coverages. The most used SFPs are the 1.25G Gigabit rate transceiver modules. This section also includes wider old format GBIC only transceivers ...

SFP optical transceivers are most used optical interface in telecommunications these days. Our Gigabit speed SFP transceiver series are compatible with most known networking equipment manufacturer ...

Discover SFP Gigabit single-strand BiDi modules for 20Km with SC connector. Cisco compatible - buy now for efficient fiber links!
