

GYTS optical cable national standard outer diameter

The both cable ends are sealed with heat shrinkable end caps to prevent water ingress.

Outdoor Fiber Optic Cable NCTS-GYTS Outdoor Stranded tube Light-armored fiber optic cable 24 - 144 cores

The cable is in accordance with applicable standard of cable and requirement of customer. The following test items are carried out according to corresponding reference.

Cables also include a helpful marking strip outside. The central member measures 1.6mm in total diameter. PBT loose tube thickness is always 0.3mm here. The cable diameter reaches 10.5 mm, ...

All the PBT tubes (and fillers) are stranded around the central strength member and covered by plastic coated steel tape (PSP) into a compact and round shape. Between the fibers and tubes, the water ...

Description: GYTS is the outdoor fiber optic cable type used for duct and aerial applications. The loose tube stranding technology make the fibers have good secondary excess length.

GYTS Outdoor optical cable for communication with metal reinforcing member, loose tube stranded and filled, steel-polyethylene bonded sheath Cable cross-section (only for reference, not to ...

GYTS outdoor fiber optic cable, is also called multi loose tube steel tape external cable, is consisted of 250um fibers held in oil filled PBT loose tubes wrapped around a phosphatized steel wire central ...

GYTS Fiber Optic Cable, Fiber Optic Cable, * Max attenuation : 0.35dB @ 1310nm and 0.21dB/Km @ 1550nm * Fiber : G652D * Installation : Aerial or duct * Application : Apply to Long distance ...

This Specification covers the design requirements and performance standard for the supply of optical fibre cable in the industry. XCOM ensures a stable quality control system for our cable products ...

Report certificate: It includes optical cable inspection number, optical cable type, core number, optical fiber type, length, etc

Product Specification For Optical Fiber Cable GYTS 1. Optical Fiber Cable Features 1.1 Structure: Applications: Fiber Paste

The Standard Loose Tube Light Armored Cable, or GYTS cable for short, is a type of outdoor fiber optic

Gyts optical cable national standard outer diameter

cable designed for aerial, duct, and direct buried applications.
