

One of the signature products developed by Intercable Automotive Solutions are our custom made high-voltage busbars manufactured to client specifications. Busbars are essential components in electric ...

Single-phase bus bars rated to 1000Vdc and 100A in end-fed configuration (200A for center-fed configuration) Three-phase bus bars rated to 600Vac/dc and 100A in end-fed configuration (200A for ...

Learn how TE's high voltage insulators provide robust, light-weight support for pantographs, busbars and other high voltage electric equipment on locomotives, multiple units and high speed trains.

Molex provides a versatile range of high-current high-voltage busbar solutions suitable for various applications and environments. Busbars and busbar connectors are the backbone of many ...

WILLELE offers a complete selection of MCB busbars and compatible accessories for safe and efficient circuit assembly. Our range covers every essential component -- from copper and brass bars to ...

An insulated high voltage bus bar for use in densely populated high voltage power supplies. HI/Bus can be bent and will retain its shape prior to soldering and potting.

Molex's Sentrality Pin and Socket Interconnect System offers high-voltage, high-current board-to-board, busbar-to-board and busbar-to-busbar connectors and provides a +/- 1.00mm radial self-alignment to ...

Schneider Electric USA. M9XUP312 - Multi9 - comb busbar - 3L - 18 mm pitch - 12 modules - 115A.

Our busbars can be combined with fasteners of all shapes and sizes but when combined with our HPLB (High-Power Lock Box) terminal we can eliminate all loose fasteners and provide a self-aligning, ...

Providing the equipment and skills to produce even the most complex busbars with maximum efficiency by optimizing materials and applying best practices. Molex offers a range of busbar solutions to meet ...
