

High-density data center PDU wall-mounted units available now

Our most advanced PDU, it's built for high-performing data centers and applications, like AI. Fit multiple PDUs in most standard rack sizes outfitted with AI servers and liquid cooling.

Discover Eaton rack PDUs for small business network closets to large data centers. Select a rack PDU to fit your IT needs.

Our Power Distribution Units (PDU's) are designed for scalability and rapid deployment for modern data centers. Offering increased power density in a compact and ventilated structure, real time monitoring, ...

Below you will find a variety of PDUs, including both vertical (zero RU) and horizontal (rack mount) form factors to align with your physical infrastructure, with options for Basic, Network Metered, and ...

Delta's PDUs offer power capacities from 225 to 950 kVA and are highly customizable products. We can design and manufacture solutions tailored to your data center based on your input/output voltage, ...

PowerFlo Solutions offers top of the line PDU products for the data center marketplace. We use high-quality, USA-made magnetics, advanced manufacturing, and top-tier power distribution products to ...

With options designed for high-density environments, our PDUs are built to support the increasing power demands of cutting-edge technologies, including AI, machine learning, and big data analytics.

Discover efficient Remote Power Panels (RPP), Floor PDUs, Data Center PDUs, Rack PDUs, Volts, and Transformer PDUs for your power distribution needs.

Built for rugged performance, the rack PDU reliably operates in temperatures up to 140°F (60°C) in environmental conditions up to 95% humidity, providing consistent performance and ...

Increasing rack power density both in the data center and at the network edge means that reliable power distribution is crucial. Our innovative power distribution units and rack PDUs not only maintain power, ...

High-density data center PDU wall-mounted units available now
