

High-precision ONT optical network terminal for local area networks

The Tellabs 140CL Optical Network Terminals (ONTs) provide high-density Gigabit Ethernet connectivity that is a scalable and smart choice for the new enterprise LAN.

Discover our selection of GPON, EPON, and XG (S)PON ONT/ONU devices. Choose from reliable Optical Network Terminals for seamless connectivity and efficient network solutions.

The Calix GigaPoint® GP4201X is an indoor, high-performance compact terminal featuring a 10 Gigabit Ethernet (GE) interface, along with three 1 Gigabit Ethernet interfaces and 2 voice ports delivering ...

With the option of Laser Logoing and a QR Code, these ONT enclosures make setup more efficient, enabling faster customer self-installs and quicker service activation.

Our next generation of multigigabit XGS-PON optical network terminals (ONTs) is here and ready to support the most bandwidth-intensive subscribers on your network.

Optical Network Terminal (ONT) - ONTs enable optical to electrical conversion and Ethernet connectivity for voice, video, data, Wi-Fi, and all other digital enterprise services and devices.

Step into the future of passive optical networking with Precision OT. Meet OpenPath, the groundbreaking, end-to-end PON access solution crafted by our team of experts.

Optical network terminals provide a seamless bridge between fiber optic and Ethernet networks. Discover plug-and-play convenience and auto-negotiation features.

Our integrated circuits and reference designs help you create optical network terminal (ONT) units that enable high-speed data connections for today's passive optical networks.

Designed to deliver powerful business services to end-users in free-standing, wall- or desk-mounted applications, the Tellabs 142R Optical Network Terminal (ONT) incorporates four (4) Gigabit Ethernet ...
