

High-precision coherent optical modules original and genuine products

Coherent NuMKW fibers are designed for high power laser systems, offering unmatched performance through lowest photodarkening, SRS, TMI and highest beam quality.

Coherent Corp is a vertically integrated photonics company delivering laser systems, optical components, and precision measurement instruments for industrial, scientific, and ...

Enhance your network with high-performance coherent optical modules. Featuring tunable DWDM, LC connectors, and data rates up to 400Gbps for long-haul & metro networks. Reliable, efficient, and ...

Generate high-bandwidth, complex modulation format optical signals with our high-performance coherent optical communications and analysis solutions. Our products use high-quality components ...

Broad product offerings and innovative technology have made Coherent the world's largest supplier of pluggable optical modules.

These photodiodes offer both singlet and 1x4 array configurations with integrated lenses. These RoHS-compliant devices provide efficient optical coupling and compatibility with all major four ...

Build fiber, ultra-short pulse, and Q-switched lasers with Coherent high-performance acousto-optic and electro-optic devices. Make lasers, laser systems, and optical components with our wide range of ...

800G OSFP ZR+ Pro Transceiver is a high performance, high output power, cost effective pluggable DCO module compatible with various switches and routers for optical data communication ...

High precision optical components and sophisticated drive electronics provide power and control to your application, reducing signal-to-noise ratios and increasing measurement speed.
