

High-precision multi-wavelength light source wholesale

Any Spectrum, Any Time, One Solid-State Light Source!

Step-1: Select your desired collimated LED sources (up to 8 or more LED"s) based on wavelengths and output powers, according to the specific requirements for your application.

The TML-LED offers a precise spectral wavelength tuning range of 430 to 700 nm and is a compact system that combines a broadband white lamp light source and FWS tunable bandpass filter with full ...

Silicon Lightwave Technology, Inc. designs & manufactures precision fiber optic assemblies, specialty optical components, and custom photonics

Buy wholesale laser equipment parts supplies for your business today at Alibaba . Browse for ready multi wavelength light source supplies from motivated Chinese wholesalers.

Our Multi-Wavelength Laser systems provide robust, adaptable solutions for applications requiring precision across multiple spectral bands.

With Mightex"s multi-wavelength collimated LED light sources, multiple LED sources can be efficiently combined into a single output beam and offer major advantages such as long lifetime, easily ...

The TL-512 Optical Light Source is a high-precision fiber signal generator equipped with dual or triple wavelength outputs, suitable for comprehensive testing of singlemode and multimode fiber networks.

Using Prizmatix Beam combiners modules and other accessories enable the creation of customized multi-wavelength, collimated, light-guide coupled, or fiber-coupled LED light sources enabling ...

High-power LED light sources. Deep UV to near IR. Multiple output formats available: collimated, fiber-coupled, lightguide-coupled, or precision spotlight.
