

The advantages realised by using aluminium tubular busbars are: Busbars are lighter in weight and have a greater stiffness than stranded conductors with the same current transfer capacity.

Made from aluminum alloys, the Aluminum Tubular Busbar strikes a balance between conductivity, weight reduction, and mechanical strength, making it an ideal choice for industrial and infrastructure ...

Our seamless aluminum bus tubes feature smooth surfaces, uniform cross-sections, and no visible defects such as cracks or twists, ensuring excellent performance in both indoor and outdoor power ...

Located in Central America, Honduras is a tropical paradise attracting many tourists every year to its gorgeous islands, lush rainforests and picturesque mountains.
