

Table 3-305 SFP-1000BaseT specifications SFP-1000BaseT

In simple terms, this module is the standard solution for short-range optical communication at 1 Gigabit speeds, widely used in enterprise, data center, and campus networks.

Multimode optical modules have a typical center wavelength of 850 nm, and are used with multimode fibers. Multimode fibers have lower transmission performance than single-mode fibers because of ...

Huawei eSFP-GE-SX-MM850 optical transceiver module, 850nm multi-mode, 1Gbps speed, LC connector, 1km max distance. Compliant with 1000base-SX standard.

Buy Genuine Huawei Optical Modules and Cables from GenuineModules with best price and fast worldwide shipping.

Multi-mode optical modules are applicable to short-distance transmission, while single-mode optical modules are applicable to long-distance transmission. Single-mode optical modules will be widely ...

For details about the optical modules supported by optical ports on switches, see "Appearance and Structure" of a specific switch model in the Hardware Description. The following figure shows the ...

Description Infinique's transceiver module supports lengths of up to 500m over multi-mode fiber of 850nm wavelength via a LC Duplex Connector. Each SFP transceiver module can be used in any ...

Huawei SFP-1.25G-SX compatible optical transceiver is a dual fiber 1000Mbps Small Form-factor Pluggable SFP module for use in 1000BASE Ethernet. SFP SX provides 1Gb/s throughput up to 550 ...

It supports dual data-rate of 1.25Gbps/1.06Gbps and 2km transmission distance with 50/125μm multi-mode OM2 fiber. This 1G SFP SX transceiver module fully complies with the SFP Multi-Sourcing ...

Huawei eSFP-GE-SX-MM850 optical transceiver module, 850nm multi-mode, ...
