

The high performance of NF5488A5 makes it an ideal choice for a series of AI scenarios such as intelligent image, video and voice processing, financial ...

Key attributes type Rack private mold No products status Stock processor type Intel Xeon place of origin Shanghai, China model number NF5488A5 brand name Huawei Configuration Barebone System

NF5488A5 is an exciting new addition to the comprehensive AI portfolio. Ranking first in single-server performance in the MLPerf AI benchmarks, it continues to lead the benchmark of AI training and ...

Experience Unmatched Performance with AI Servers & GPUs from Supermicro, ASUS, Inspur, and NVIDIA. High Performance, Scalability, and Low Latency at Exclusive Prices. Global delivery ...

Instead, it is one of the highest-end dual-socket servers you can buy today for AI training. Based around dual AMD EPYC CPUs and the NVIDIA HGX A100 8 GPU (Delta) platform, this server ...

The Inspur NF5488A5 and NF5488A5 barebone server are based on the Intel Xeon Scalable 2nd Generation processor family. These processors deliver increased performance, enhanced security ...

Discover the nf5488a5 AI server with AMD GPU acceleration, ideal for deep learning and HPC. Compare specs, prices, and supplier ratings. Click to find the best fit for your needs.

NF5488A5 server provides users with ultimate AI performance and ultra-high-speed bandwidth while offering powerful computing support for various AI scenarios such as intelligent customer service, ...

The NF5488A5 is an exciting addition to the full range of AI product lines, ranking first in single machine performance in the MLPerf AI Benchmark and continuing to lead the AI training and reasoning ...

Q5: How can I get an accurate quotation?A: You can first send your specific demand information and product pictures, and we will customize a solution for you according to your needs and inform you of ...

The high performance of NF5488A5 makes it an ideal choice for a series of AI scenarios such as intelligent image, video and voice processing, financial analysis, and virtual assistants.
