

Hungary Professional Temperature Measurement Optical Cable System

We undertake to construct end points of optical networks. Cabling is performed by highly specialized subcontractors as it also involves specific work requiring a large amount of staff.

Cable temperature sensor EGT 353...356, 456, 554 How energy efficiency is improved Precise measurement of temperature for energy-efficient control of HVAC installations and monitoring energy ...

Tunable lasers Adjustable pulse width lasers (Agilite) Components of Terrawatt and Petawatt lasers Ultrafast laser systems THORLABS measurement technology Optomechanics Motion Control

The DTSX fiber optic temperature sensor, which uses optical fiber for the temperature sensor, quickly detects and locates abnormalities in equipment by monitoring temperatures at production facilities ...

Discover all relevant Fiber Optic Cable Manufacturers in Hungary, including Unoptix and HÁL-ÉP KFT.

A fibre-optic temperature measurement system designed to provide continuous, accurate monitoring of the scale-free metal surface under the steel mill roller table.

Fiber optic temperature sensor, Distributed fiber optic temperature measurement system, Fiber optic temperature sensor for transformer, Advanced production technology is used to manufacture fiber ...

LightingLab, as a calibration laboratory specializes in the calibration and supervision of photometric instruments, electrical measuring instruments, temperature and humidity devices, torque measuring ...

This proprietary calculation and visualization software precisely calculates the conductor temperature at every point within the cable system and presents the results in a clear, graphical format for the user.

We mainly offer design, research, development, and optical assembly services to our clients. We also manufacture and calibrate custom optical and optoelectronic devices, from prototypes to medium and ...
