

Joint venture for high-performance busbars HPW and Brand KG have set up a joint venture to develop high-performance busbars for EVs, writes Nick Flaherty.

To connect various high voltage (HV) components to the HV system, we also deliver a wide variety of busbars. In cooperation with the customer, these can also feature our Bus Bar Insulation Tubing (BBIT).

The joint venture, operating under the name High Performance Busbars, offers the complete value chain for the production of high-tech wires and busbars for e-mobility under one roof.
