

Description: Radial leaded Devices. 276 Results. Datasheet: 1MbKb/2P. Manufacturer: SAMYANG ELECTRONICS CO.,LTD..

The optical module is a very important component in an optical communication system. This article will introduce you to the internal components and structure of the optical module.

Explore the ultimate guide to optical modules. Learn types, functions, performance metrics & how to choose the right module for your fiber network.

A special USB extension cable will be included with the K16 which corrects the wiring. This also allows WIFI adapters to be placed further from the K16 which can increase the signal strength due to the ...

It has two sets of optical systems, each including a light source and a detector, so it is possible to measure two types of fluorescent reagents with one module.

Novastar K16 can be controlled by the intelligent management software V-Can, which can achieve rich picture stitching effect and convenient and fast operation. Novastar K16 can send the processed ...

It has 16 local ports that can each drive 800 pixels (with power injection) at 40FPS. It also has 4 RJ45 differential ports that can output an additional 16 strings via differential receivers. Finally, it has a ...

LOR controllers use Cat 5 cable to connect to controllers, but it's still just a serial signal that is being transmitted. You could wire some Cat 5 directly from the K16 to your LOR controller if ...

K16 has powerful video processing and sending capabilities and is widely used in various application scenarios such as stages, conferences, events, exhibitions and other high-end rental and small-pitch ...

Product Summary: AUTUNEER Addressable Led Controller, Programmable RGB Pixel Controller 16 Port 16384 Pixels K16 Artnet Madrix DMX Full Color Ws2812b Ws2812 Ws2811 Light Controller
