

The SCW 17B7-D50R laser diode modules are 1650nm DFB laser diodes packaged in a 3 pin TO56 package with a back-facet detector & window cap. These SCW laser diode modules are specifically ...

The advantages of Laser Chips High Power Laser chips Superiority These groundbreaking VCSEL, HCSEL and edge-emitting laser chips, a remarkable innovation that delivers exceptional ...

Easily identify the right detector for your application with our intuitive search tool. Simply enter your specifications, and you will get an instant overview of matching detectors from our extensive product ...

Shop DigiKey's large in-stock selection of Laser Diodes, Modules. View inventory, pricing and order now for same day shipping!

1578nm 15mW PM DFB Laser Diode for H2S Detection 1578 nm distributed feedback (DFB) laser diode module produced by idealphotonics is a cost-effective laser source with high coherence. The DFB ...

GLSUN manufactures 2.5G, 10G, 25G uncooled DFB/EML laser diode (LD) chips and MPD/PIN photodiode (PD) detector chips at 1270/1310/1550nm for single mode and multimode package for ...

We offer custom fabrications, producing laser diode chips across wavelengths from 500 nm to 1650 nm, available in both FB and DFB configurations to meet precise customer specifications. Our solutions ...

Automatic power monitoring The fully automatic L-I-V curve detection system independently developed by SLT greatly improves the efficiency of semiconductor laser testing. It automatically measures the ...

Discover the industry-leading reliability and performance of TRUMPF's laser diode chips. We offer laser diodes to meet your specific needs. A high-quality product and unmatched customer service is ...

Our semiconductor laser diodes come in a variety of packages, including standard &#216;5.6 mm and &#216;9 mm TO-cans, butterfly, laser pigtail, and chip on submount. QCLs come in &#216;9 mm, C-mount, D-mount, ...
