

Moxa provides a wide range of industrial Ethernet switches that feature industrial-grade reliability, network redundancy, strengthened security, easy management, and competitive price-to ...

Our Industrial Ethernet Switch portfolio comprises Managed and Unmanaged Switches with Gigabit, PoE, IEC 61850 certification, and for DIN rail mounting.

Ideal for industrial automation, smart campuses, and enterprise networks, our switches feature ruggedized enclosures, Layer 2 or Layer 3 functionality, and flexible power inputs (AC/DC) for ...

Our industrial 10G switches are designed to deliver exceptional speed and performance. With high-throughput capabilities, they ensure seamless data transmission and network efficiency, even in the ...

In addition to the ultra-rugged IP40 fanless all metal housing, it is equipped with configurable I/O fault contacts, which makes it ideal for easy installation and monitoring in industrial applications. To ...

To meet the needs of critical infrastructure networks, Actelis provides hardened and managed 10 Gigabit Ethernet switches with optional PoE.

Our rugged 10G switches provide reliable performance for critical industrial networks. Equipped with advanced features like VLAN, QoS, link aggregation, and redundancy, these ruggedized 10G ...

With its 28 ports (4x 10GBase-X SFP+ slots, 24x 10/100/1000Base-T PoE+ ports according to IEEE 802.3at) this switch is suitable for cabling larger units in industrial environments as well as for in ...

Thanks to SPE technology, the switch enables ETHERNET communication at 10 Mbps over impressive transmission distances of up to 1,000 meters - using shielded, twisted-pair two-wire cables.

The ruggedized industrial managed 10G Ethernet switches support Dual Device mode that enables the 10G/Mi to operate as two independent and isolated Ethernet switches.
