

We engineer and manufacture rugged, high-performance managed, unmanaged and PoE switches for the world's most demanding environments. Partner with us for wholesale, or fully customizable ...

Managed Industrial Ethernet Switches are purpose built for reliable networking in harsh industrial environments such as factory automation, transportation systems, utilities, and energy infrastructure.

Industrial environments demand switches that combine reliability, security, and flexible management. This guide highlights five strong options and explains how to choose the right model ...

Our Industrial Ethernet Switch portfolio comprises Managed and Unmanaged Switches with Gigabit, PoE, IEC 61850 certification, and for DIN rail mounting.

Our Stratix® 5400 Industrial Ethernet Managed Switches support layer 2 switching and layer 3 routing in a high-performance, all Gigabit platform.

A managed industrial Ethernet switch provides valuable capabilities that go beyond the basic functionality of an unmanaged switch, combined with such industrial characteristics as extended ...

Built to endure the demanding conditions of factories, transportation infrastructure, grid substations, and other harsh environments, Cisco Industrial Ethernet switches come in a wide range of form factors to ...

Our lite and fully managed industrial network switches come equipped with all the essential features expected for reliable and efficient industrial networking.

Mencom offers a wide range of reliable Industrial Networking Solutions for the industry 4.0 Smart Factory applications. Choose from a wide selection including managed, unmanaged, industrial ...

We have been designing industrial hardware for Modbus and PROFINET to ethernet conversion for over 40 years. This expertise has been used to design the toughest Ethernet Switches on the market.
