

Manufacturer of 200G Liquid-Cooled Switches

ASA Computers offers NVIDIA Mellanox networking switches for any type of high performance computing applications.

High-density 200GE/100GE switches featuring high buffer and millions of routing entries. A single chassis provides up to 144x 100GE ports or 72x 200GE ports, supporting flexible port configuration ...

Cisco is actively innovating in direct-to-chip liquid cooling for high-performance switches, laying the groundwork for solutions that will enable seamless and scalable AI at unprecedented ...

Mellanox® Technologies, Ltd. (NASDAQ: MLNX), a leading supplier of high-performance, end-to-end smart interconnect solutions for data center servers and storage systems, today ...

With GB200 Racks, there are 4 different major form factors offered, with customization within each. The first one is the GB200 NVL72 form factor. This form factor requires approximately ...

It offers maximum reliability, availability, and maintainability to support direct-to-chip liquid cooling. FEATURES: Rackmount Coolant Distribution Unit (CDU) built for the most demanding High ...

We manufacture fast high voltage solid-state switches for voltages up to 200 kV in single switch or bridge configuration for AC & DC. Our delivery program consists of more than 700 standard switches ...

NADDOD 200G InfiniBand and ethernet liquid/immersion cooling transceivers with the transmission distance of 100m adopt leading hermetic sealing technology, compatible with mainstream cooling ...

GIGALIGHT 200G QSFP56 immersion cooling extender (GLQE-PC201-DXX) is an important part of liquid immersion solution, normal QSFP form transceiver/AOC can be used for immersion ...

Our focus is on providing customized, high-performance liquid cooling solutions that enhance the performance, reliability, and efficiency of demanding thermal applications.

Manufacturer of 200G Liquid-Cooled Switches
