

Faster replacement and priority support, covered for 5 years. High-performance 10G SFP modules for optimal connectivity. An 8-port, Layer 2 switch made for 10G SFP+ connections.

WISI is excited to announce the launch of the game-changing Novalink Outdoor Aggregation Switch in North America. The Novalink represents WISI's commitment to pioneering solutions tailored for the ...

This compact managed Layer 2 switch offers eight 10G SFP+ ports and supports high-bandwidth links, making it ideal for aggregation switching to any UniFi device that deploys various interconnect ...

Discover the crucial differences between core, aggregation, and access switches. Find out which type can best transform your network's performance in 2025.

Asterfusion introduced five Layer 3 aggregation and core switches powered by their cutting-edge SONiC-based Enterprise operating system in 2025. These aggregation switches ...

Built with a durable metal enclosure and advanced switching architecture, the Aggregation Switch supports multiple Gigabit and 10G SFP uplinks for flexible deployment. Managed models feature ...

Discover the role of aggregation switches. Explore differences between aggregation, access, and core switches, and choose the right model for your network.

Provides advanced Security ACLs for improved security, traffic control, and QoS, ensuring efficient and optimized networking.

An Aggregation or "Top-of-Rack" switch is designed to connect everything in a rack at high speeds, then have an even bigger pipe out to the rest of the network. The Pro Aggregation does ...

Equipped with all-fiber ports, Aggregation Series Switches deliver up to 25 Gbps. With features such as Static Routing, DHCP Server, ACL, IGMP Snooping, STP, LAG, and centralized cloud management, ...
