

Suncall America provides advanced fiber optic connectors, adapters and accessories customized for any application. We're focused on working directly with our customers to design, develop and ...

In today's telecommunications world, the need for more data transmission speed has necessitated better connection capabilities. Among these is a new connector known as SN™; ...

The SN plug connector allows users to increase the port density per 19" height unit (HU) in datacenter optical fiber cabling infrastructures beyond the maximum 96 LC duplex ports that are possible using ...

Designed and optimized for next-generation data rates, the SN connector offers network operators the chance to densify their existing legacy infrastructure whilst at the same time providing an upgrade ...

Consider these popular solutions in industrial sensing, control, connectivity, and more, including cost-effective options from RS PRO. Our Better World product range empowers sustainable ...

The VSFF connector offers a performance enhancing, reliable option which meets the CPR B2ca standards for very high fire safety. The new VSFF connectors are complementary ...

Improve network connectivity with Cablcon SN fiber optic assemblies. Experience the industry's smallest footprint and push-pull convenience. Request a quote.

With the new SN connector, Hyperscale customers can easily link individual duplex fiber connectors into QSFP-DD & OSFP transceivers, providing high-density, efficient installation and cost-effective ...

Network operators benefit from a threefold improvement in packing density over the whole network as a result of the smaller footprint. The SN connector, which combines "best-in-class" packing density with ...

State-of-the-art connector with unmatched density, simple insertion/extraction, and field configurability.
