

New High-Voltage Complete Equipment Agency

We offer design/build solutions for new construction or renovation of substations, existing overhead and underground power transmission and distribution systems ranging in voltages from 5kV up to 500kV.

AHV provides full installation services for substations, collector systems, switchyards and transmission lines. Our team of experienced Project Managers and Field Engineers work closely with your project ...

From designing and installing substations and transformers to maintaining high-voltage systems, we deliver robust solutions that support your infrastructure's energy demands. We outfit facilities ...

Hot Line Construction is an experienced high voltage electrical contractor with expertise in transmission, distribution, substations and emergency response.

From new installations to general maintenance, expansion, and rebuild work, CVE has successfully completed hundreds of high-voltage, switchyard, and interconnect substations in locations ranging ...

Expanse self-performs, end-to-end Engineering, Procurement, and Construction (EPC) services, along with a full suite of Commissioning services, dedicated to delivering quality Medium (MV) and High ...

With an expert focus on electrical services for industrial and commercial facilities, as well as government and infrastructure work, Hi Voltage is bringing quality and integrity back to this industry.

Whenever you must connect to the grid, Equisales is the company to call. We handle electrical projects from 15 kV to 500 kV. We also perform medium voltage work, including the installation of PCMs, ...

Choose Bilfinger to keep your high-voltage network under control-- with maximum uptime, operational safety, and minimal risk. Bilfinger delivers the full engineering process for low- and medium-voltage ...

Equipped with the latest, state of the art test equipment, our high voltage electrical contractors are able to test and calibrate the most sophisticated electrical distribution systems in service today.
