

# New Zealand Offshore Light Transmitter NRZ

This document is the current consolidated version of Maritime Rules Part 43 produced by Maritime New Zealand, and serves as a reference only. It has been compiled from the official rules that have been ...

A simulation of a WDM system for visible light communications (VLC) in an outdoor environment was conducted using two distinct modulation techniques: RZ-OOK and NRZ-OOK.

This is where you'll find all sorts of information, consider it the online NZART library of useful, and in some cases not quite so useful information. The most commonly accessed sections of our library are.

To operate a VHF or MF/HF radio under the General User Radio License (GURL), you must hold a valid maritime radio operator's certificate and have a New Zealand-allocated callsign.

Radio Spectrum Management (RSM) is responsible for efficiently and effectively managing the radio spectrum in New Zealand.

In this paper, we proposed and experimentally demonstrated a long-distance high-speed underwater optical wireless communication (UOWC) system ...

In this study, we conduct a comprehensive comparison of UOWC employing three distinct line coding schemes, namely NRZ, AMI, and CSRZ.

When the product is a radio transmitter in a class where the level of conformity is A1, A2 or A3, you need to use the R-NZ compliance mark, not the RCM. The R-NZ is a New Zealand-only radio label for ...

In this paper, we proposed and experimentally demonstrated a long-distance high-speed underwater optical wireless communication (UOWC) system in a laboratory environment by using a ...

After more than 60 years of operating in New Zealand and the South Pacific region, Wright's is the first port of call for shipping companies, vessel owners and the defence force for the supply, installation ...

**INTRODUCTION** This book explains the buoyage and beaconage system in New Zealand waters. It describes the recommended requirements for aids to navigation in harbours and their approach ...
