

New Zealand supplier of compatible 1.6T passive optical network

NADDOD offers 1.6T/800G InfiniBand XDR solutions, which combine transceivers with cables. The transceiver portfolio includes 1.6T 2xDR4 and 2xFR4 OSFP224 transceivers in IHS and RHS ...

Amphenol's 1.6T OSFP transceiver delivers 200G per lane to support advanced 800G and 1.6T Ethernet applications, enabling high-speed, high-density optical connectivity.

Our optical modules feature traditional DPO, low-power LRO, LPO, and Active Loopback designs for testing, and support data rates from 10G up to 1.6T across a wide range of package types.

Explore 1.6T optical transceivers for AI and HPC data centers across US, China, Europe, and APAC. Learn about OSFP1600/XD, PAM4 lanes, LPO/CPO architectures, and LINK-PP high ...

Factory-direct optical transceivers and high-speed cables, from legacy links to 1.6T, built to deploy faster, scale cleaner, and stay compatible as your network evolves.

Passive Optical Multiplexing solutions for CWDM and DWDM solutions to reduce companies' ongoing Opex costs. Our partner is a global leader whose total output of SFP modules reached 400+ million ...

Lumentum's 1.6T 2xDR4 TRO OSFP transceiver delivers ultra-high-speed optical connectivity for AI and cloud data centers requiring the highest density and energy efficiency.

Our optical transceivers have successfully passed various compatibility tests. We can offer 24/7 local onsite tech support with field engineers and experts to ensure products are running smoothly on your ...

FiberMall Compatibility Testing Center has most of the mainstream brand switches and devices. Before shipment, We will code the optical modules or DAC/AOC cables, and then test them on the ...

Get value for 50+ years by investing in a flexible, scalable, fibre-based LAN. Transform your business with our passive optical LAN solutions. Reduce costs, add capacity and improve connectivity with ...
