

Today, Industrial Automation networks have become faster, smarter, and more robust. The ability of PLCs to simply "talk" to devices by way of distributed control has evolved into much more ...

Through industrial switches, PLC can obtain various data on the production line in real time, such as temperature, pressure, flow, etc., and automatically adjust according to preset programs.

Learn how industrial network switches connect PLC systems, enable machine networking, and support reliable industrial automation.

Our Industrial Ethernet Switch portfolio comprises Managed and Unmanaged Switches with Gigabit, PoE, IEC 61850 certification, and for DIN rail mounting.
