

Crouse-Hinds series PTB and PTC pull box enclosures are installed in conduit systems to act as pull and splice boxes, protect conductors in threaded rigid conduit, connect lengths of conduit, and ...

Features: More internal cubic capacity for different sized conductors Accurately tapped, tapered threads (NPT) for tight, rigid joints and ground continuity PTB - 90° pull boxes; PTC - straight pull boxes

Act as pull and splice boxes. Protect conductors in threaded rigid conduit. Interconnect lengths of conduit. Change conduit direction. Provide access to conductors for maintenance and future system ...

These pull boxes fit inline with the conduit run and allow for straight runs (PTC) or 90 degree bends (PTB). The large size and variable length lets them serve as pulling fittings or accessible splice boxes.
