

BYE350 series protection relay is applicable to the protection, measurement and control of 110kV and below transmission line, transformer outgoing feeder, capacitor feeder and other bays.

The protection, measuring and control device for voltage class of 10kV and below, integrates protection, measurement, control and communication, which can realize protection of various elements and ...

To ensure a microcomputer integrated protection device correctly and accurately performs its relay protection tasks, selection during design should comprehensively consider reliability, response time, ...

In this paper, a microcomputer protection device based on the TMS320F28335 chip is developed. Considering the anti-interference of field use, ...

This paper puts forward a kind of coal mine based on bus design of microcomputer relay protection system, compared with the traditional microcomputer relay protection device, good real-time, ...

Designed to replace traditional electromagnetic relay protection, this device integrates comprehensive power system protection, real-time monitoring, and intelligent control capabilities.

Abstract: According to the requirements and characteristics of performance test in the process of research and development of relay protection device, a general automatic test system for relay ...

In this paper, a microcomputer protection device based on the TMS320F28335 chip is developed. Considering the anti-interference of field use, detailed hardware and software design is ...

In this study, FTA and FMEA methods are used to systematically diagnose and analyze the reliability of microcomputer relay protection devices, and the potential failure modes of the ...

The invention discloses a microcomputer relay protection device based on a serial bus technology.

In order to improve the reliability of the microcomputer protection, it is necessary to suppress the interference series resonance, block the coupling channel and improve the anti ...

Designed to replace traditional electromagnetic relay protection, this device ...
