

Price of Dutch Temperature Measuring Optical Cable

High precision FOTEMP TS fiber optic temperature probes are for operating environments where conventional electronic-based temperature sensors, thermocouples, thermistors and RTDs are ...

The DTS Fiber Optic Cable enables accurate monitoring of temperature changes in the pipelines, making it possible to detect and pinpoint areas where leaks occur.

Discover a wide assortment of temperature probes, adaptors, and sensors at Cables and Sensors - all ready for quick delivery and priced to support high-volume purchasing opportunities.

Our Products Temperature Transmitters CSA/UL/Marine certified fiber optic temperature transmitters for industrial applications.

DTSX measures temperature distribution over the length of an optical fiber cable using the fiber itself as the sensing element and it is ideal for temperature monitoring over long distances and wide areas.

It covers the Luxtron M-1100 & M-1200 Series System and various probes, including medical-grade, rugged, and high-temperature options. Instructions are provided for measuring temperatures on ...

The DTS-4C-20KM Distributed Optical Fiber Temperature Sensing System is a high-performance solution for continuous, real-time temperature monitoring over long distances up to 20 km. Using ...

For measurement projects with larger distances we offer our fiber optic extension cable with a diameter of 1.3mm (PTFE) or 3mm (PVC). The cable sheath can vary depending on customer requirements.

Reliable and versatile cable for easy installation. Small size and fast reaction to temperature changes. The Ordinary Temperature Sensing cable is a unique sensor for the evaluation of distributed ...

Find your cable temperature sensor easily amongst the 44 products from the leading brands (E+E, JRI, GRILLO, ...) on DirectIndustry, the industry specialist for your professional purchases.
